

TECHNOV

SEPTEMBER 19

Please join us for Technov865

Time: 2:30pm-5:00pm (Networking Reception 5 - 6pm)

Location: The Square Room: 4 Market Square, Knoxville, TN 37902

Technov865 is a showcase of the latest upcoming technologies in our area from Oak Ridge National Laboratories (ORNL) and the University of Tennessee Research Foundation (UTRF). This is a unique opportunity to meet and hear from the inventors behind the technologies. The event will also feature several speakers with unique perspectives on innovation.

Featured Keynote Speaker: **Jetta Wong**, Senior Advisor, Los Angeles Cleantech Incubator (LACI)

Best Practices for Technology Entrepreneurs & Institutions

Jetta has over 14 years of experience developing programs and policies that support energy and environment technologies. Prior to joining LACI, Jetta Wong established the Office of Technology Transitions for the United States Department of Energy and served as its first Director. In that capacity, she assisted the private sector, state and local governments, universities, laboratories and other stakeholders and engaged with the Department on the commercialization of new technology. Read Jetta's bio: <http://lincubator.org/people/team/jetta-wong/>

Joe Hoagland, TVA

Stacey Patterson, UTRF

Tom Rogers, ORNL

Mike Paulus, ORNL

Along with the inventors, leaders from TVA, UTRF, and ORNL will speak about the exciting innovation and technology happening at their organizations.
